

Professional Photographer? Want to Shoot at the Field?

Please read over the below guidelines, sign and return to Terra Farms

The flower farm is a beautiful place.

We welcome photographers... but there are some simple rules.

1. Call or email to schedule your time. All photography must be scheduled and pre-paid.
2. Photography sessions are billed in one-hour time slots - \$30 per hour, Friday through Sunday. If you schedule during regular U-pick hours there may be other people in the field. Monday through Thursday, one-hour time slots - \$50 as this is private when the public will not be in the field.
3. Our flowers take a lot of work. Folks come from all over the area to pick a bouquet. Your clients are welcome to pick some of their own, but they must purchase what they pick. You are responsible for telling your clients this and you must ask before they or you pick and the appropriate cutting tools – that will be provided – must be used.
4. No animal photography — sorry, pets do not do well in the field.
5. Props are welcome if they are not intrusive. Example... do not put a chair in the middle of a flower bed, but certainly put it in the path beside a flower row.
6. All photography sessions must leave no trace in the field — e.g. glitter and flowers don't mix.
7. You may not enter the field alone. Someone will be at the checkout stand where you will check in before your session begins. We do not allow people to roam the property as we are a working farm with real farm implements, animals, workers and mud.
8. You must have professional liability insurance. You are responsible for your clients while they are in the field.
9. INJURIES. The Photographer acknowledges obligation to obtain appropriate professional insurance coverage for the benefit of their clients and Terra Farms. The photographer waives any rights to recovery from Terra Farms for any injuries that the Photographer (and/or photographers clients or employees) may sustain while at Terra Farms location.
10. No refunds. However... we do offer reschedules where you can use your pre-paid amount as a credit. Any change of plans must be communicated at least one hour prior to previously agreed upon time or no reschedule may be made and no refund given. We will not tolerate no-shows.
11. Photographers must visit the field for a tour before initial shoot (this can be the day of the shoot).
12. We are also a small business and appreciate any and all post tags on social media... we love to repost and help our fellow entrepreneurs out as well! Thanks!
